

# JACK LINK'S

Aquatic and Activity Center, est. 2017

Founded to support a healthy and vibrant community, the Link family honors its home of Minong and surrounding communities for supporting the family and their respective businesses. The center was built with purpose and passion to promote health, wellness, education fun and fellowship in the beautiful and proud Northwoods community.

On behalf of the Link family, we give thanks to the board members and community leaders for fearlessly leading the planning, construction and ongoing commitment to support the Jack Link's Aquatic and Activity Center.

*"We pray this center becomes a beacon for the community. A place where we can come together to support our individual health and wellness, and our collective strength to foster a thriving and proud community. May God bless the Northwoods community and all its people."*
