

JACK LINK'S

Aquatic and Activity Center, est. 2017

This building is a living monument to the magnificent community of Minong, Wisconsin. Its strong, hardworking and faithful people built our businesses, and this center is a small token of our family's profound appreciation for them.

And we give thanks to God, from whom all blessings flow, for His benevolence that made this structure and its extraordinary amenities possible.

We also thank the Jack Link's Aquatic and Activity Center board of directors and area civic and business leaders for their tireless efforts that turned our idea into a reality.

The mission of this facility is simple: to promote health, wellness, fun and fellowship in our beautiful and proud north woods region. We pray that this charge is kept always, and that this center remains a resource to you for generations to come.

We look forward to enjoying the Jack Link's Aquatic and Activity Center with you. We are sincerely grateful for the great privilege it is to be a part of this wonderful community.

With great thankfulness,

Jack and Mary Jo Link
